#### Define Problem Statements (Customer Problem Statement Template):

The **Credit Card Approval Prediction System** utilizes predictive machine learning models to analyze applicant data and determine creditworthiness. The objective is to replace traditional, error-prone manual workflows with an optimized pipeline that guarantees operational efficiency, eliminates human bias, and accelerates decision-making times.

|                    |                                      |                               |                               |                                                       |
|--------------------|--------------------------------------|-------------------------------|-------------------------------|-------------------------------------------------------|
| I am<br>(Customer) | I'm trying to (get<br>a credit card) | But<br>(limit credit history) | Because (irregular<br>income) | Which makes me<br>feel<br>(frustrated and<br>anxious) |
|--------------------|--------------------------------------|-------------------------------|-------------------------------|-------------------------------------------------------|

| Problem Statement (PS) | I am (Customer)                                | I'm trying to                                       | But                                                 | Because                                                                                                     | Which makes me feel                                                                    |
|------------------------|------------------------------------------------|-----------------------------------------------------|-----------------------------------------------------|-------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| PS-1                   | A credit card applicant with a busy lifestyle. | Get a quick decision on my credit card application. | The manual review process takes days or even weeks. | Banks have to manually verify multiple eligibility factors like income, credit history, and existing loans. | <b>Anxious and frustrated</b> by the long waiting period and lack of instant feedback. |
